

Do You
Know...

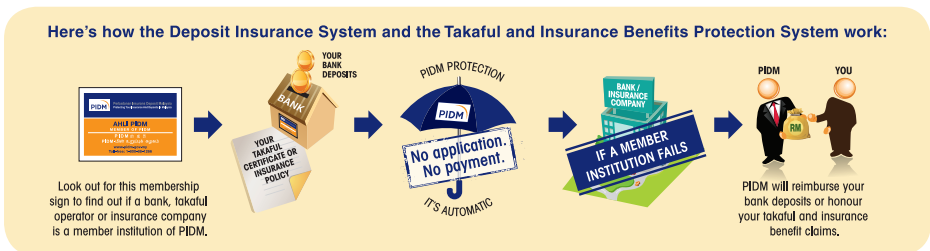

PIDM protects your bank deposits and takaful and insurance benefits...

Learn more.

Perbadanan Insurans Deposit Malaysia (PIDM) is the Government agency established under Akta Perbadanan Insurans Deposit Malaysia. PIDM administers the national Deposit Insurance System and the Takaful and Insurance Benefits Protection System to protect depositors and owners of takaful certificates and insurance policies.

With PIDM's protection, your bank deposits are protected up to **RM250,000** and benefit claims under your takaful certificate or insurance policies are protected up to **RM500,000** in the unlikely event of a member institution's failure. This protection is provided automatically – you do not need to apply and no payment is required.

Here's how the Deposit Insurance System and the Takaful and Insurance Benefits Protection System work:
